## REPORT ON THE CHRIS HANI DISTRICT (CHDM) 2023/24 to 2025/26 MEDUIM TERM REVENUE AND EXPENDITURE FRAMEWORK BUDGET

#### **Purpose:**

To table the 2023/24 Medium Term Revenue and Expenditure Framework (MTREF) Budget for consideration.

#### **Authority:**

Chris Hani District Municipality Council.

#### **Background and legislation**

The Constitution of the Republic of South Africa, Act 108 of 1996;

The Municipal Systems Act no.32 of 200, as amended and Regulations;

The Municipal Structures Act no.117 of 1998;

The Municipal Finance Management Act no.56 of 2003

Municipal Budget Reporting Regulations

The 2023 Division of Revenue Act;

MFMA Circulars 122 and 123; and

The Disaster Management Act no.57 of 2002 and Regulations.

#### **Exposition of facts**

The process of developing the municipality's annual budget is largely guided by the strategic thrusts and operational priorities of CHDM's IDP as well as the MTREF that sets out the expected annual revenue and projected expenditure for the budget year under consideration, plus the two outer years.

## 2. The following budget principles and guidelines were considered for the compilation of the 2023/2024 to 2025/2026 MTREF –

- National Treasury's MFMA Circulars were used as guidelines in compilation of the MTREF;
- Headline inflation predictions;
- National and Provincial outcomes and priorities;
- The priorities and targets in relation to the key strategic focus areas as determined in the IDP;
- The 2022/2023 Adjustments Budget priorities, targets and base line allocations were taken as guideline for future revenue and expenditure stream projections;
- Tariff rates revenue stream increases should be affordable, and the NT guideline is that it generally should not exceed inflation as measured by the CPI, although many input costs in rendering services are beyond the control of the municipality and posing a challenge on continuous repair and maintenance. In addition, tariffs must be cost reflective, and should take into account the need to address infrastructure projects;
- The consideration made in the gazetted annual Division of Revenue Act for capital projects from funding of both National and Provincial.

## 3. The main challenges experienced during the compilation of the 2023/2024 to 2025/2026 MTREF can be summarised as follows –

- Reprioritisation of capital projects and operating expenditure within the financial affordability limits of the budget, taking the cash and financial viability position into account;
- The increased costs associated with bulk water, diesel and fuel, litigations and electricity, placing upward pressure on tariff increases to consumers.
   Continued high tariff increases may soon render municipal services financially unaffordable;
- Maintaining revenue collection rates at the targeted levels, despite the realities on the metering and the growing culture of no-payment by consumers;
- The on-going improvement and enhancement of the Capital Replacement Reserve that are being resuscitated and gradually enhanced, impacting on the Municipality's ability to fund capital expenditure from own internal revenue sources:
- The on-going difficulties in the national and local economy post COVID-19 recovery and the on-going disasters impacting negatively to the municipality's financial sustainability;
- Aging and poorly maintained water and sanitation infrastructure; and persistent infrastructure breakages.

## 4. The process followed during the compilation of the 2023/24 to 2026/2027 MTREF can be summarised as follows –

The 2023/24 budget process commenced with Departmental Strategic sessions held during the month of February 2023, led by the Head of Departments or Directors. The purpose of these sessions was to review the envisaged strategies of the Municipality towards improved serviced delivery. The IDP and Budget workshops with all Directorates were held from the 2 to 10 March 2023 to address the departmental budget requests. The last consultation was held with the Budget Steering Committee on the 17 March 2023, thereafter the Budget and Treasury Office (BTO) to develop an MTREF budget for the consolidated budget for CHDM

and Chris Hani Development Agency (CHDA) and thereafter submit an institutional MTREF Budget, for Mayoral and Council's considerations. After the consideration by Mayoral and Council Committees, the tabled budget and IDP will be taken through a public participation or roadshow, preferable in April / May 2023.

5. The High-level Overview 2023/24 MTREF Budget can be summarised as follows (Operating Revenue and Capital + Operating Expenditure and Capital) –

Anticipated Operating Revenue for 2023/2024 is estimated at R 1,638,085, 315 or R 111,964, 518 (7.34%) more than the 2022/2023 approved adjustments budget revenue of R 1,526,120, 797.

The increase is as a result of the yearly tariff increase of 5.3% for water and sanitation sales and as well the inflationary increases for the other revenue items. The overall increase of the operating revenue is also as a result of increase of transfers and subsidies.

The overall Operating Revenue for 2023/2024 is estimated at R 1,638,085,315 or R 111,964, 518 (7.64%) more than the 2022/2023 approved adjustments budget revenue of R 1,526,120, 797.

The majority of the funding source of the CHDM's operational expenditure are largely from national government grants such as Local Government Equitable Share (LGES) and a fraction of service charges. Although the municipality is grant depended, there are other revenue strategies that are envisaged to optimise its current revenue base. There is a rollout of SMART metering, the disconnections that has attracted the attention of consumers who are still trapped in the culture of non-payment, down payments are made, government departments have made undertakings of paying after receiving their equitable share portion in April 2023.

The following are the major funding sources for the operations of CHDM:

LGES R 695.71 million;

Water charges R 340.63 million; and

Sanitation charges R 88.18 million; -

**Services charges** relating to water and sanitation constitutes the second biggest component of the revenue basket of the Municipality totalling R407.22 million for the 2022/23 financial year and increasing to R428.80 million for 2023/24, the growth constitute 5.3% in line with the CPI as recommended the relevant MFMA Budget Circulars.

The **interest on debtors** were estimated to a similarly to the service charges with the increase of 5.3% and estimated to be R105.30 million. This is also in line with the CPI recommended increases by that were outlined in the MFMA Budget Circular 122 and 123 as issued in December 2022 and March 2023.

The **interest earned on Current and Non-Current Assets** were estimated to increase by 5.3% in the 2023/24 financial year and estimated to be R43.10 million. This is informed by the strategy of recovering the old outstanding debt, rollout of the SMART Meters, debt incentive schemes rollout, the appointment of the Debt Collectors and the large sums of the down payment by defaulting consumers.

**Transfers and Subsidies: Operational** – This item includes the local government equitable share and other operating grants from national and provincial government. This is allocation is informed by the DoRa gazette as stipulated in the above Table 2.

**Other revenue (Operational Revenue)** is estimated to increase to be R274.98 million in 2023/24 financial year. This increase is informed by the VAT recoveries that the Municipality is receiving from the SARS assessment, tendering documentation, and other telephone recoveries.

The gains are estimated to be R3.29 million for the 2023/24 financial year, which is informed by the auction that will be conducted during the 2023/24 financial to dispose off the assets in line with the Council policies and other relevant regulations.

**Operating surplus** is estimated to increase to be R281.56 million in 2023/24 financial year. This is due to the inflationary tariff increases and other revenue enhancement strategies such as rollout of SMART Meters and appointment of Debt Collection Team.

Overall operating expenditure for 2023/2024 is estimated at R 1,426,486,590 or R 144,186,759 (11.24%) more than the adjustments budget expenditure of R1,282,299,831 for 2022/2023. Employee related costs, contracted services, and other expenditures are the main cost drivers within the municipality and alternative operational efficiencies, or additional revenue sources will have to be identified to lessen the impact of wage and tariff increases in future years.

The general CPIX rates was used for the operating expenses increases for 2023/24 was 5.3%, throughout the MTREF Budget period however, some of the expenditures do not increase with the same percentage points due to the assessment of the year -to date expenditures where the Municipality is trying to avoid any potential unauthorised expenditures.

A Salary and Wage Collective Agreement that was implemented from effective 1 July 2022 was an increase of 4.9%. The Municipality has budgeted for the 5.3% for the 2023/24 financial period plus the notch increase of 2.5% totalling to 7.8% in line with the CPI. Based on the proposed salary increase resulted to an increase of salary to R420.95

million, which represents a 7.8% growth when compared to the previous financial year. The total salary costs are informed by the salary projections related to the current structure amounting to R390.49 million and the vacant funded positions therefore, the actual salary increase is in line with the proposed increase by National Treasury of 7.8% including the notch increase when compared to the R390.49 million of 2022/23 adjusted budget.

The salary increases for Councillors is estimated to increase by 4% to R13.22 million for 2023/24 financial year.

The **inventory consumed** is estimated to be R57.32 million and represent an increase of 24% for 2023/24 financial year. Although this increase is more than the CPI index, however, this has considered the YTD expenditures for the 2022/23 financial year to avoid any potential unauthorised expenditures.

**Debt Impairment** is estimated to increase by 3% to R223.94 million, this amount will include the prescribed debt and Irrecoverable Indigent Dent. The appointment of Debt Collection Team and the rollout of SMART Meters. These measures will further reduce this expenditure item.

The **deprecation and impairment** cost are estimated to be R189.54 million representing 5.3% increase due to new assets and impairment assessment that is being conducted currently for the 2022/23 AFS process.

The **contracted services** are estimated to be R279.22 million and represent an increase of 19.37% for 2023/24 financial year. Although this increase is more than the CPI index, however, this has considered the YTD as well as additional expenditures related to security services R65m, litigations R14m, repairs and maintenance of R42m, and other contracted services that includes both insource and outsourced. This increase is also influenced by the operational projects funded by MIG operational. This is also a prudent measure to avoid any potential unauthorised expenditures.

The **transfers and subsidies** are estimated to be R86.81 million and represent an increase of 62.42% for 2023/24 financial year. This increase is more than the CPI index because it includes cost drivers such as Rural Sanitation to local municipalities which the

municipalities has prioritised, CHDA subsidy and CDC subsidy. This is also a prudent measure to avoid any potential unauthorised expenditures.

The **Operational Costs** are estimated to be R155 million and represent an increase of 4.82% for 2023/24 financial year. This increase is within the CPI index and also has considered the YTD as well as additional expenditures and inflationary price increases from suppliers for goods and services.
