2. Objective of by-laws

- a) These by-laws are formulated and gazetted to give proper effect to the local municipality's policies on:
- Tariffs;
 - Credit control and debt collection; and
 - Indigent management.
- b) These by-laws must be read in conjunction with the policies referred to, and within the applicable provisions of the following legislation:
- Water Services Act No. 108 of 1997;
 - Local Government: Municipal Systems Act No. 32 of 2000;
 - Local Government: Municipal Finance Management Act No. 56 of 2003; and
 - Local Government: Municipal Property Rates Act No. 6 of 2004.
- c) Copies of these policies, with the relevant annexures setting out the legal requirements and legal framework within which the by-laws must operate, appear on the municipality's website (address provided) and are available free of charge on application to the Office of the Municipal Manager (address provided).

CHAPTER II: TARIFFS

3. Objective of tariffs

In setting its annual tariffs the council shall at all times take due cognizance of the tariffs applicable elsewhere in the economic region, and of the impact which its own tariffs may have on local economic development.

4. General principles

- a) Service tariffs imposed by the local municipality shall be viewed as user charges and shall not be viewed as taxes, and therefore the ability of the relevant consumer or user of the services to which such tariffs relate, shall not be considered as a relevant criterion (except in the case of the indigency relief measures approved by the municipality from time to time).
- b) The municipality shall ensure that its tariffs are uniformly and fairly applied throughout the municipal region.
- c) Tariffs for the two major services rendered by the municipality, namely:
- water
 - Sanitation
- shall as far as possible recover the expenses associated with the rendering of each service concerned, and – where feasible – generate a modest surplus as determined in each annual budget. Such surplus shall be applied for the future capital expansion of the service concerned, or both.
- d) The tariff which a particular consumer or user pays shall therefore be directly related to the standard of service received and the quantity of the particular service used or consumed.
- e) The municipality shall develop, approve and at least annually review an indigency support programme for the municipal area. This programme shall set out clearly the municipality's cost

recovery policy in respect of the tariffs which it levies on registered indigents, and the implications of such policy for the tariffs which it imposes on other users and consumers in the municipal region.

- f) In line with the principles embodied in the Constitution and in other legislation pertaining to local government, the municipality may differentiate between different categories of users and consumers in regard to the tariffs which it levies. Such differentiation shall, however, at all times be reasonable, and shall be fully disclosed in each annual budget.
- g) The municipality's tariff policy shall be transparent, and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service in question.
- h) The municipality further undertakes to ensure that its tariffs shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned.
- i) The municipality also undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery.
- j) In the case of directly measurable service, namely water, the consumption of such services shall be properly metered by the municipality, and meters shall be read, wherever circumstances reasonably permit, on a monthly basis. The charges levied on consumers shall be proportionate to the quantity of the service which they consume.
- k) In addition, the municipality shall levy monthly availability charges for the services concerned, and these charges shall be fixed for each type of property as determined in accordance with its appropriate policies. Generally, consumers of water shall therefore pay two charges: one, relatively minor, which is unrelated to the volume of consumption and is levied because of the availability of the service concerned; and another directly related to the consumption of the service in question.
- l) In considering the costing of its water and sanitation services, the municipality shall take due cognizance of the high capital cost of establishing and expanding such services, and of the resultant high fixed costs, as opposed to variable costs of operating these services. In adopting what is fundamentally a two-part tariff structure, namely a fixed availability charge coupled with a charge based on consumption, the municipality believes that it is properly attending to the demands which both future expansion and variable demand cycles and other fluctuations will make on service delivery.

5. Calculation of tariffs for major services

In order to determine the tariffs which must be charged for the supply of the two major services, the municipality shall identify all the costs of operation of the undertakings concerned, including specifically the following:

- a) Cost of bulk purchases
- b) Distribution costs
- c) Distribution losses
- d) Depreciation expenses
- e) Maintenance of infrastructure and other fixed assets
- f) Administration and service costs, including

- service charges levied by other departments such as finance, human resources and legal services;
 - reasonable general overheads, such as the costs associated with the office of the municipal manager;
 - adequate contributions to the provisions for bad debts and obsolescence of stock;
 - all other ordinary operating expenses associated with the service concerned including, in the case of the electricity service, the cost of providing street lighting in the municipal area (note: the costs of the democratic process in the municipality – that is, all expenses associated with the political structures of the municipality – shall form part of the expenses to be financed from property rates and general revenues, and shall not be included in the costing of the major services of the municipality).
- g) The intended surplus to be generated for the financial year, such surplus to be applied:
- as an appropriation to capital reserves; and/or
 - generally in relief of general services.
- h) The cost of approved indigency relief measures.

6. Structure of tariffs

- a) The DM shall in consultation with local councils, determine the municipal services and levels thereof which will be subsidized in respect of indigent customers in accordance with national policy, but subject to principles of sustainability and affordability. The potable water function rendered by the District Municipality is however rendered for the following three levels of subsidised services namely:-
- RDP standard for the rural areas (water provided by standpipes and sanitation for VIP latrines);
 - Public Benefit Organisations such as old age homes (a blanket subsidy is provided based on the number of individuals taken care of within that institution – (1,5 kilolitres per person for potable water and 0,6 kilolitres for sanitary purposes, representing a total of 2,1 kilolitres per person);
 - Full service provided for residents in towns and serviced areas (10 kilolitres for water per household - 6 kilolitres for potable and 4 kilolitres for sanitary purposes) - The accountholder will be liable for all payments relating to monthly water consumption in excess of 10kilolitres and the Municipality shall be entitled to restrict water supply to the property where payment obligations are not met;
 - Each registered indigent household shall be subsidised for sanitation as provided for in the annual budget as well as the municipal tariff structure adopted by the council.
- b) Because water is a scarce national resource, and this municipality is committed to the prudent conservation of such resources, the tariff levied for domestic consumption of water shall escalate according to the volume of water consumed. The tariff for domestic

consumption shall be based on monthly consumption of up to 6 kilolitres (for non-indigents), more than 6 kilolitres but not more than 15 kilolitres , more than 15 kilolitres but not more than 30 kilolitres , more than 30 kilolitres but not more than 45 kilolitres , and more than 45 kilolitres , more than 45kilolitres but no more than 60kilolitres and greater than 60kilolitres s.

7. Water

- (a) The categories of water consumers as set out in sub-section (c) below shall be charged at the applicable tariffs, as approved by the council in each annual budget.
- (b) Tariff adjustments shall be effective from 1 July each year.
- (c) Categories of consumption and charges shall be:
 - All domestic water consumers registered as indigents with the municipality shall receive a subsidy as per Section 6(a) above. Thereafter a stepped tariff per kilolitres as determined by the council from time to time shall be applicable on metered water consumption, as set out in Chapter 3 of this by-law.
 - All other domestic consumers shall be charged for actual water consumption at a stepped tariff per kilolitres as determined by the council from time to time, and as set out in Chapter 3 of this by-law.
 - A basic charge per water meter, as determined by the council from time to time, shall be charged on all water consumers, except registered indigents.

8. Sanitation

- a) The categories of sanitation users as set out in sub-section (c) below shall be charged per month at the applicable tariff as approved by the council in each annual budget.
- b) Tariff adjustments will be effective from 1 July each year.
- c) Categories of usage and charges shall be:
 - A basic (availability) charge per month shall be charged for undeveloped erven, irrespective of their permitted or intended use.
 - A fixed monthly charge based on the costs of the service shall be charged for bucket removal for domestic users. Registered indigents may receive such relief on this charge as the council deems affordable when approving each annual budget.
 - A fixed monthly charge based on the costs of the service per sewer point/toilet shall be charged to all businesses, industries and institutional users.
 - An effluent fee shall further be payable by factories and other industrial users where the wastewater emanating from such users requires special purification measures by the municipality. Such fees shall be based on the toxic content of the wastewater concerned and the costs of the purification.

CHAPTER III: CREDIT CONTROL AND DEBT COLLECTION

9. Objective

The council of the municipality, in adopting this policy on credit control and debt collection, recognizes its constitutional obligations to develop the local economy and to provide acceptable services to its residents. It simultaneously acknowledges that it cannot fulfill these constitutional obligations unless it exacts payment for the services which it provides and for the taxes which it legitimately levies – in full from those residents who can afford to pay, and in accordance with its indigency relief measures for those who have registered as indigents in terms of the council's approved indigency management policy.

10. Notice of default and intended termination or restriction of services

Within 7 (seven) calendar days after each monthly due date for payment of municipal accounts for service charges, the municipal manager shall dispatch to every defaulting accountholder, that is, every accountholder who as at the date of the notice has not paid the monthly account in full or has not made an acceptable arrangement with the municipal manager for partial or late payment, a notice stating that unless full payment is received or an acceptable arrangement made with the municipal manager for partial or late payment, the municipal electricity or water supply or both such supplies to the property to which the account in arrears relates shall be terminated or restricted 14 (fourteen) calendar days after the date of the notice concerned.

11. Reconnection or reinstatement of terminated or restricted services

Services to defaulting accountholders terminated or restricted in terms of Section 10 above shall be reconnected or reinstated by the municipal manager only when all the following conditions have been met:

- (i) the arrear account has been paid in full, including the interest raised on such account; or an acceptable arrangement has been made with the municipal manager for the payment of the arrear account, including the interest raised on such account;
- (ii) the charge(s) for the notice sent in terms of Section 11 above and for the reconnection or reinstatement of the terminated or restricted service(s), as determined by the council from time to time, have been paid in full;
- (iii) a service contract has been entered into with the municipality, as contemplated in Section 17 below; and
- (iv) a cash deposit has been lodged with the municipal manager in compliance with Section 18, such deposit to be newly determined on the basis of currently prevailing consumption and usage of services in respect of the property concerned or, if insufficient data is available in regard to such consumption, of the currently prevailing consumption and usage of services in respect of a comparable property.

12. Periods for reconnections or reinstatements

The municipal manager shall reconnect or reinstate terminated or restricted services within 3 (three) working days after the date on which the conditions set out in Section 10 above have been met, unless the municipal manager is unable to do so because of circumstances beyond the control of the municipality.

13. Illegal reconnections

- (a) The municipal manager shall, as soon as it comes to the notice of the municipal manager that any terminated or restricted service has been irregularly reconnected or reinstated, report such action to the South African Police Service, disconnect or restrict such service(s), and not reconnect or reinstate such service(s) until the arrear account, including the interest raised on such account, the charges for the notice sent in terms of Section 11 above and the charges for both the original and subsequent reconnection or reinstatement of the service(s) and the revised deposit have been paid in full, together with such penalty as may be determined by the council from time to time.
- (b) In addition, all metered consumption since the date of the illegal reconnection, or the estimated consumption if a reliable meter reading is not possible, shall also be paid full before any reconnection or reinstatement is considered.

14. Restriction of services

If the municipal manager is of the opinion that the termination of services, in the case of a particular property in respect of which the account is in arrear, is not in the best interests of the community – specifically because of the potential endangerment of the life of any person, whether resident in or outside the property concerned – the municipal manager may appropriately restrict rather than terminate the services in question.

15. Services not reconnected or reinstated after 4 (four) weeks

- (a) If services have been terminated or restricted in the case of a property in respect of which the account is in arrear, and the accountholder has not paid such arrears, including the interest raised on such account, or made an acceptable arrangement with the municipal manager for the payment of the arrear account, including the interest raised on such account, within a period of 28 (twenty eight) calendar days after the date of termination or restriction of the service(s) concerned, the municipal manager shall forthwith hand such account over for collection and such further action as is deemed necessary to the municipality's attorneys or any debt collecting agency appointed by the council.
- (b) Such further action shall include if necessary the sale in execution of such property to recover arrear service charges (if the accountholder is also the owner of the property).
- (c) All legal expenses incurred by the municipality shall be for the account of the defaulting accountholder.

16. Arrangements for payments of arrear accounts

Allowing defaulting accountholders to make arrangements for the payment of arrear accounts shall be at the discretion of the municipal manager.

- (a) Each defaulting accountholder shall be allowed a maximum period of 3 (three) months within which to pay an arrear account, together with the interest raised on such account, and it shall be a condition for the conclusion of any arrangement that the accountholder is bound to pay every current municipal account in full and on time during the period over which such arrangement extends.
- (b) If an accountholder breaches any material term of an arrangement, the balance of the arrear account, together with the balance of interest raised on such account, shall immediately become due and payable to the municipality, and if the accountholder defaults on such payment, the municipal manager shall terminate or restrict services to the property in question and shall forthwith hand such account over for collection as envisaged in Section 15 above.
- (c) An accountholder who has breached an arrangement as set out above shall not be allowed to make any further arrangements for the payment of arrear accounts, but shall be proceeded against, after the dispatch of the initial notice of default as envisaged in Section 16 above and failure by the accountholder to pay the arrear account, together with interest raised on such arrears as required in terms of such notice, as though such accountholder had breached a material term of an arrangement.

17. Service contract

- (a) A service contract shall henceforth be entered into with the municipality for each property to which the municipality is expected to provide all or any of the following services:
 - water
 - sanitation.
- (b) Such contract shall set out the conditions on which services are provided and shall require the signatory to note the contents of the municipality's credit control and debt collection policy, a copy of which shall be provided to such signatory, as well as the provision of the Municipal Systems Act in regard to the municipality's right of access to property.
- (c) Where the signatory is not the owner of the property to which the services are to be provided, a properly executed letter from such owner indicating that the signatory is the lawful occupant of the property shall be attached to the service contract.
- (d) Current consumers and users of the municipality's services who have not entered in a service contract as envisaged above, must do so within 2 (two) years from the date on which the by-laws to implement the present policy are published, and failure to do so shall be considered as a default equivalent to nonpayment in terms of Section 16 above.

18. Payment of deposits

Whenever a service contract is entered into in terms of Section 17 above, the signatory shall lodge a cash deposit with the municipality, such deposit to be determined as follows:

- (a) in the case of the signatory's being the registered owner or spouse of the registered owner of the property concerned, an amount equal to one quarter of the aggregate monetary value of the relevant service(s) provided to the property over the immediately preceding 12 (twelve) month period, or – where no such information is available – one quarter of the aggregate monetary value of the relevant service(s) provided to a comparable property over the immediately preceding 12 (twelve) month period;
- (b) in the case of the signatory's not being the registered owner or spouse of the registered owner of the property concerned, an amount equal to one third of the aggregate monetary value of the relevant service(s) as determined above.

19. Allocation of part-payments and appropriation of deposits

- (a) If an accountholder pays only part of any municipal account due, the municipal manager shall allocate such payment as follows:
 - (i) firstly, to any unpaid charges levied by the municipality in respect of unacceptable cheques, notices, legal expenses and reconnections or reinstatements of services in respect of the account or property concerned;
 - (ii) secondly, to any unpaid interest raised on the account;
 - (iii) thirdly, to any unpaid sanitation charges;
 - (iv) fourthly, to any unpaid water charges.
- (b) This sequence of allocation shall be followed notwithstanding any instructions to the contrary given by the accountholder.
- (c) In the event of an accountholder's defaulting on the payment of an arrear account, as contemplated above, the municipal manager shall forthwith appropriate as much of such deposit as is necessary to defray any costs incurred by the municipality and the arrear amount owing to the municipality in the same sequence that is applicable to the allocation of part payments, as contemplated above.

20. Queries by accountholders

- (a) In the event of an accountholder in the view of the municipal manager reasonably querying any item or items on the monthly municipal account, no action shall be taken against the accountholder as contemplated above, provided:-
 - i) the accountholder has paid by due date an amount equal to the monthly average monetary value of the three most recent un-queried accounts in respect of the service under query,
 - ii) all un-queried balances on such account, and
 - iii) such query is made in writing by the accountholder or is recorded in writing by the municipal manager on behalf of the accountholder on or before the due date for the payment of the relevant account.

Any query raised by an accountholder in the circumstances contemplated in Section 22 below shall not constitute a reasonable query for the purposes of the sub-section (a) above.

21. Inability to read meters

If the municipality is unable to read any meter on any property because the meter has been rendered inaccessible through any act or omission of the accountholder or owner of the property concerned, the municipal manager shall estimate the consumption of the service concerned by determining the monthly average of the metered consumption recorded on the three most recent accounts in respect of which meter readings were obtained, and thereafter bill the accountholder for the monetary value of such estimated consumption.

22. Dishonoured and other unacceptable cheques

If an accountholder tenders a cheque which is subsequently dishonoured by or is found to be unacceptable to the accountholder's or the municipality's bankers, the municipal manager shall – in addition to taking the steps contemplated in these by-laws against defaulting accountholders – charge such accountholder the penalty charge for unacceptable cheques, as determined by the council from time to time, and such charge shall rank equally with the costs and expenses incurred by the municipality for purposes of determining the sequence of allocations and appropriations contemplated in Section 19 above.

23. Interest on arrears and other penalty charges

- (a) Interest shall be charged on all arrear accounts at the prevailing overdraft rate offered to the municipality by the municipality's bankers plus 3 (three) percentage points.
- (b) If the municipality uses more than one banking institution it shall for purposes of determining the interest on arrear accounts apply the overdraft rate offered by the institution with which its primary bank account is placed.
- (c) Interest shall be calculated on a daily basis. For purposes of determining arrear amounts, all amounts unpaid including interest previously raised and penalty charges, but excluding value added tax, shall be taken into account.
- (d) In considering each annual budget the council shall review the adequacy of its interest charges, and shall determine the following for the financial year concerned:
 - i) charges for disconnection or restriction of services (Section 18)
 - ii) charges for reconnection or reinstatement of services (Section 19)
 - iii) charges for notices of default (Section 18)
 - iv) penalty charges for illegal reconnections (Section 21)
 - v) penalty charges for dishonoured and unacceptable cheques (Section 23).

24. Indigent management

In regard to the payments expected from registered indigents, and the credit control and debt collection actions contemplated in respect of such residents, this Chapter of the bylaws must be read in conjunction with the Chapter on indigency management.

25. Arrears which have arisen prior to the adoption of the present policy

- (a) The council shall separately consider arrears which arose prior to the adoption of the present by-laws, and shall advise accountholders of their respective obligations in regard to such arrears.
- (b) In determining such obligations, the council shall have regard to the quantum of such arrears, to the period over which the default occurred, and to whether the accountholder concerned has registered as an indigent in terms of the municipality's by-laws on indigency management.
- (c) The council shall further consider an incentive scheme to encourage accountholders to settle all or a stated percentage of these arrears.

CHAPTER IV: INDIGENCY MANAGEMENT

26. Objective

Because of the level of unemployment and subsequent poverty in the municipal area, there are households which are unable to pay for normal municipal services. The municipality therefore adopts its indigency management policy and attendant by-laws to ensure that these households have access to at least basic municipal services, and is guided in the formulation of this policy and by-laws by the national government's policy in this regard.

27. Who qualifies for indigent support

- a) The extent of the monthly indigent support granted to indigent households will be based on the budgetary allocation for a particular financial year and the tariffs determined for each financial year. Council will determine an indigent tariff that will be charged to indigent households to recover maintenance and operational costs.
- b) Once approved, the historical debt of an indigent household will be written off and their monthly services will be subsidised.
- c) A formula will be used to determine the amount payable to an indigent household. The formula will be as follows:
 - A. 2 x SASSA grant: 100% subsidy;
 - B. 2 x SASSA grant + 10%: 90%;
 - C. 2 x SASSA grant + 20%: 80%;
 - D. 2 x SASSA grant + 30%: 70%;
 - E. 2 x SASSA grant + 40%: 60%;
 - F. 2 x SASSA grant + 50%: 50%;
 - G. 2 x SASSA grant + 60%: 40%;
 - H. 2 x SASSA grant + 70%: 30%
 - I. 2 x SASSA grant + 80%: 20%
 - J. 2 x SASSA grant + 90%: 10%
- d) Council will determine the indigent subsidy based on the equitable share received from national government, the poverty threshold and any possible cross-subsidy in the tariff structure and will amend it from time to time.
- e) Only households where the accountholder or property owner has registered as indigent in terms of the municipality's annual registration programme, and whose registration has been accepted and entered into the register of indigents shall qualify for the above relief.
- f) For a household to qualify for subsidies or rebates on the major service charges in terms of Section 29 below, the registered indigent must be the full-time occupant of the property concerned, and if not also the owner of the property concerned, may not own any other property, whether in or out of the municipal area.

- g) Indigency relief shall apply for a period not extending beyond the financial year in which the particular household is registered as indigent, registration must be renewed in each registration programme if relief is to continue.
- h) To register as an indigent, the relevant property owner or accountholder must personally complete and sign the registration form provided by the municipality for this purpose, and furnish such further documentation as the municipality specifies.
- i) The municipal manager will provide assistance to persons who cannot read or write, at such times and places as are specified in the notices published to indicate that the registration programme is to take place.
- j) Registration will take place on dates and at times and places determined by the council.
- k) The municipality may impose conditions for the registration of any owner or account holder as an indigent and these may include:
 - allowing reasonable access to the municipality or its agents in order to effect repairs to the water or sanitation system; and
 - an obligation to report all faults or defects with or in the water or sanitation system on his property to the municipality or its agents within 12 hours of becoming aware of such fault or defect.

28. Application of the by-law

- a) The relief on specified service charges will be determined as part of each annual budget and in terms of the municipality's policies on tariffs.
 - RDP standard for the rural areas (water provided by standpipes and sanitation for VIP latrines);
 - Public Benefit Organisations such as old age homes (a blanket subsidy is provided based on the number of individuals taken care of within that institution – (1,5 kilolitres per person for potable water and 0,6 kilolitres for sanitary purposes, representing a total of 2,1 kilolitres per person);
 - Full service provided for residents in towns and serviced areas (10 kilolitres for water per household - 6 kilolitres for potable and 4 kilolitres for sanitary purposes);
 - The accountholder will be liable for all payments relating to monthly water consumption in excess of 6 kilolitres and the Municipality shall be entitled to restrict water supply to the property where payment obligations are not met;
 - Each registered indigent household shall be subsidised for sanitation as provided for in the annual budget as well as the municipal tariff structure adopted by the council.

29. Non-compliance of households registered as indigent

- a) When a property owner or accountholder who has registered as an indigent fails to comply with any arrangements or conditions which are materially relevant to the receipt of indigency relief, such person will forfeit his or her status as a registered indigent with immediate effect, and will

thereafter be treated as an ordinary residential property owner or accountholder for the financial year concerned. The onus is on each registered indigent to advise the municipal manager if he is unable to comply with any arrangement or condition contemplated in section 30(a).

- b) It may happen that if any household in receipt of indigency relief falls into arrears in respect of any amounts due by it to the municipality, the property owner or accountholder concerned must make immediate arrangements with the municipal manager to pay off these arrears owing within a reasonable time determined by the municipal manager in terms of the municipality's credit control and debt collection by-laws. If these arrangements are not made, no subsidies will be paid or free services provided, and services may be terminated in terms of the municipality's credit control and debt collection by-laws.
- c) The relief to indigents may be withdrawn at the discretion of the municipal manager if:
- a registered indigent who qualifies for such relief fails to keep to the terms of the policy agreement; or
 - any tampering with the installations of the municipality is detected.
 - If a registered indigent is found to have provided fraudulent information to the municipality in regard to any material condition for registration as an indigent, such person shall immediately be removed from the register of indigents, and shall be liable to repay to the municipality with immediate effect all indigency relief received from the date of such fraudulent registration.
 - Moreover, such person may not again be considered for indigency relief for a period extending for 5 (five) years beyond the financial year in which the misdemeanor is detected.
- d) Indigency relief will not apply in respect of property owners owning more than one property, whether in or outside the municipal area.

CHAPTER V: MISCELLANEOUS PROVISIONS

30. Power of entry and inspection

- a) A duly authorised representative of the municipality may for any reason related to the implementation or enforcement of this by-law at all reasonable times or in emergency at any time, enter premises, request information and carry out such inspection as deemed necessary, and may for purposes of installing or repairing any meter or service connection for reticulation disconnect, stop or restrict the provision of any service.
